

# Muhammad Imanullah

## Front-End Developer

Gresik, Indonesia | 081333964928 | [mimanullah26@gmail.com](mailto:mimanullah26@gmail.com) | [linkedin](#) | [github](#) | [website](#)

## SUMMARY

---

A Frontend Engineer with professional experience, specializing in modern web development using React.js and its ecosystem, including Next.js, as well as Vue.js and its corresponding framework, Nuxt.js. I am highly proficient in TypeScript, which I use to write clean, maintainable, and scalable code across all my projects.

Beyond frontend development, I also have a keen interest in mobile development, particularly using Flutter, which has allowed me to create seamless cross-platform applications. Additionally, I have experience in backend development with Node.js, utilizing the NestJS framework to build scalable and efficient server-side applications.

As a recent graduate in Informatics Engineering from Universitas Negeri Malang, I am eager to continue growing my skills and contribute to innovative projects that push the boundaries of technology. During the final phase of my studies, I took on freelance projects, applying my skills to solve real-world business challenges for clients using web development, mobile apps, and IoT. This hands-on experience not only sharpened my technical abilities but also deepened my understanding of client needs and how to deliver impactful tech solutions. It was a journey that truly shaped my approach to solving problems in the tech world.

## EXPERIENCE

---

### PT. LOGIQUE DIGITAL INDONESIA – Jakarta, Indonesia

Vuejs Developer - Contract (Nov 2022 – Apr 2023)

- Collaborated with UI/UX designers, back-end developers, and QA engineers to build web applications.
- Developed back-office applications using Vue 3 with TypeScript, ensuring high-quality and responsive interfaces.

### PT Roketin – Bandung, Indonesia

Front-end Developer - Contract (Mei 2022 – Nov 2022)

- Worked closely with cross-functional teams to create web applications, using Nuxt.js for developing back-office systems.
- Focused on delivering clean, maintainable code and optimized performance.

### PT DOT Indonesia – Malang, Indonesia

Front-end Developer - Full-time (Aug 2019 – Jan 2022)

- Partnered with designers, back-end engineers, and QA teams to implement front-end features.
- Utilized frameworks like Tailwind and Bootstrap to develop responsive UIs based on Figma designs.
- Proficiently worked with multiple languages, frameworks, and content management systems, including JavaScript, TypeScript, React, Vue, Next.js, Nuxt.js, and Inertia.

### PT Kelola Mina Laut – Gresik, Indonesia

Information Technology Support Engineer - Internship (Jul 2018 – Sep 2018)

- Managed the back-office application for PT Kelola Mina Laut using Laravel.
- Developed a mobile app with Android Java to streamline the approval process for fish shipments.

## CERTIFICATION

---

### Generasih GIGI 3.0 Full Stack Engineer – Indonesia

GoTo Impact Foundation - Apprenticeship (Jun 2023 – Dec 2023)

- Currently enrolled in the Full Stack Engineer program at GIGIH, gaining hands-on experience with MERN stack (MongoDB, Express, React.js, Node.js).
- Collaborating with industry professionals to deepen cloud technology expertise and enhance problem-solving skills.

**Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka – Indonesia**

Cloud Computing Student - Apprenticeship (Feb 2023 – July 2023)

- Participated in the Cloud Computing program at Bangkit Academy, focusing on cloud technologies and collaborative learning with industry leaders.
- Worked with Amati Indonesia to develop the learning path for the Greenskill Education Platform using Nest.js for the backend and Next.js for the frontend.

**EDUCATION**

---

**STATE UNIVERSITY OF MALANG (2020 - 2024)**

S1 Informatics Engineer

**VOCATIONAL HIGH SCHOOL TELKOM MALANG (2017 - 2019)**

Software Engineering

**SKILLS**
