SUMMARY

A Front End Developer who has been working for over 3 years, has expertise in Vue.js, React.js, Nuxt.js, Next.js, Laravel, and Nest.js. During the development process, the languages often used include Javascript, Typescript, and PHP. I focused on learning JavaScript ES6, Typescript, and frameworks related to using JavaScript. I am also interested in mobile development using Dart language and Flutter Framework, and backend development using Nodejs and Nest Framework.
